CURRICULUM VITAE 2026

Velumara

Philip Meeske

Applied AI Lead

Copenhagen, Denmark · Danish (native), English (fluent)
+45 51 17 68 88 · philip.meeske@gmail.com ·

Profile

I take AI from business case to a solution that runs in daily operation. Twelve years in ERP transformation on SAP S/4HANA, Dynamics 365 and IFS taught me why technology investments stall, and how to keep that from happening to AI. I also build hands-on with LLMs and AI coding agents.

Key figures

12 yrs
enterprise transformation

7
industries, incl. GxP pharma

2
client AI solutions, business case to delivery

Weeks
idea to working product with AI coding agents

Why me

Why AI stalls, and where I start

Business case, data, operation. I fix those first.

From value case to production

Find the value, design it in, take it live, build it myself.

AI in production

GxP case routing, LLM stakeholder reporting, own LLM products.

Delivery record

YEAR / EMPLOYER	CLIENT AND SITUATION	MY ROLE	WHAT CHANGED
2026 Implement	**Global industrial** · rollout governance and master data	Advisor, solution architect	Organisation-wide master data alignment; AI-based stakeholder mapping and reporting
2025–26 Implement	**Pharma logistics (GxP)** · high inquiry volume	Project responsible	Automated case routing; better cost efficiency
2025 Implement	**US retailer** · group-wide D365 F&O programme	PMO advisor	Governance model, team onboarding, training, test and adoption strategy
2023–24 Unify Partners	**Asset management** · D365 F&O go-live	Senior advisor	Go-live secured; release and test governance for daily operation
2024–25 Unify Partners	**Global retailer** · S/4HANA supply chain workstream without direction	Workstream lead	Capabilities redefined; clear accountability restored
2022–23 Pingala	**Automotive importer** · full D365 F&O implementation	Solution architect, PM	End-to-end delivery incl. steering committee; future operating model in place
2023–24 Unify Partners	**Global industrial** · S/4HANA transformation	Technical track lead	Stable, controlled landscape: environments, security, integration, transports
2024 Unify Partners	**Offshore energy supplier** · global ERP on IFS	Technical project manager	Critical integrations delivered; stable end-to-end solution

Skills

AI	LLM workflows, generative AI, AI coding agents, business cases for AI, process automation
ERP and data	SAP S/4HANA, Dynamics 365 F&O, AX2012, IFS, master data, integration, EDI, data migration
Delivery	Solution architecture, PMO and governance, release and test management, Azure DevOps CI/CD, adoption
Industries	Retail, pharma (GxP), industrials, energy, financial services, automotive, utilities

Employment

Velumara — Founder, independent consultant — 2027–

Programme leadership, ERP advisory, data migration and applied AI.

Implement Consulting Group — Management Consultant — 2025–2026

AI-enabled digital transformations in industrials, pharma and retail, from business case to running solution.

Independent AI & Product Builder — Alongside consulting — 2024–

LLM lead pipelines, a sales-analytics tool, algorithmic trading engines, membership and event platforms.

Unify Partners — Principal Management Consultant — 2022–2025

ERP-driven transformations on SAP S/4HANA, Dynamics 365 and IFS.

Pingala — Senior Consultant — 2019–2022

Solution architect and project manager on Dynamics 365 for retail, automotive, sports and utility clients.

Pandora — Solution Architect / Project Manager — 2017–2019

Owned the architecture and roadmap of the ERP platform behind 700+ stores; led the upgrade to D365 F&O.

Demant — Functional Lead / Data Migration Lead — 2014–2017

Order-to-cash design and data migration across multiple waves of a global AX2012 rollout.

Education

B.Sc. Electrical and Electronics Engineering
DTU, 2010–2014 · grade A (12) · bachelor project at Oticon

HD 1, Business Administration
Copenhagen Business School, 2015–2017

Certifications

Microsoft Certified: Functional Consultant Associate
MB-300 Core Finance and Operations, 2019
